ON THE MODERNIZATION  
OF CONGRESS

April 29, 2022

The Honorable Rosa DeLauro  
Chair  
House Appropriations Committee  
H-305, The Capitol  
Washington, DC 20515

The Honorable Kay Granger  
Ranking Member  
House Appropriations Committee  
1036 Longworth HOB  
Washington, DC 20515

Dear Chair DeLauro and Ranking Member Granger:

I am requesting funding for Green Hydrogen Laboratory Equipment in fiscal year 2023.

The entity to receive funding for this project is the Colorado School of Mines located at 1500 Illinois St, Golden, CO 80401.

The project would support new clean-energy research and development capabilities in decarbonizing of heavy-duty engines using innovative uses of ammonia fuel as derived from green hydrogen. The project would include a combination of multidisciplinary research expertise in ammonia chemistry, heterogeneous catalysis, and combustion fundamentals together with new laboratory capabilities to enable the development of carbon-free engine combustion. The research capabilities enabled by this project would also support the education of the next generation of students who will play important roles in the transition to sustainable-energy solutions.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Ed Perlmutter  
Member of Congress
